

Weatherhead 100 Companies Selected

October 13, 2022
For Immediate Release

Northeast Ohio – Case Western Reserve University Weatherhead School of Management is proud to announce the winners of the Weatherhead 100 for 2022 have been selected. This year’s Weatherhead 100 recipients will be honored during our annual gala – which will be returning to an in-person event - on Thursday, December 8, 2022, at the Hilton Downtown Cleveland.

The Weatherhead 100 awards were established to celebrate Northeast Ohio's spirit of entrepreneurship and to reward companies that serve as a beacon to all the region's businesses. This year, the 34th* annual Weatherhead 100 awards ceremony will recognize the region's fastest-growing companies based on revenue from 2017 to 2021. Winners will also be featured in a special issue of Crain’s Cleveland Business Magazine.

Companies are recognized in one of three categories, Weatherhead 100 Upstarts, Weatherhead 100 Winners, and Weatherhead 100 Centurions.

- Upstarts are fast-growing companies with 15 or fewer employees OR net sales of less than \$5M last year.
- Weatherhead 100 Winners are celebrated for big growth in net sales over the past five years – from at least \$100K to at least \$1M.
- Weatherhead Centurions are fast-growing companies with at least \$100M net sales last year and help drive the region.

For 34 years the Weatherhead 100 has recognized local organizations for their annual revenue achievements. Please note, there were no awards given in 2020. We will celebrate our 35th Awards in 2023!
